

25X1

TECHNICAL SECTION

OVERTIME

1. Sixteen hours holiday time (22 February) and fifty-two hours overtime was worked during the five week period. All was during

25X1

T&I UNIT

1. The T&I Unit processed five hundred-ninety-eight major items with thirty-five rejections.

25X1

6. Due to items 4 and 5 plus lack of manpower, quite a bit of equipment may be farmed out to contractors for rehab in the coming weeks.

7. There is about seventy-five man-hours of battery testing to be performed and due to time and manpower the units will be cycled only once before acceptance.

8. The T&I Unit processed 882 receiving vouchers consisting of 1818 items plus 430 cargo vouchers consisting of 1335 items.

REHAB UNIT

1. The Electronic Technicians processed sixty-one items on PTI's, thirteen on job orders, thirteen on repair requests, two on receiving vouchers for a total of one hundred forty-five pieces. Thirteen pieces were Allocation 26.

2. The Crypto Technicians processed eighteen items on receiving vouchers, thirty-eight on cargo vouchers, sixteen on PTI's, three on a job order and one on a repair request for a total of three hundred seventy-one pieces.

ENGINEERING UNIT

[REDACTED]

25X1

2. The Mechanical Engineer has installed, adjusted and lubricated the new DO-ALL contour machine in the machine shop.

3. [REDACTED] has received the TDY test equipment case. The unit will be checked as luggage on upcoming trips to test the overall package and packaging of the equipment.

[REDACTED]

25X1

5. [REDACTED] used room dividers to shield the coffee mess area from the general work area and also shielded the Allocation 26 work area. This should help in the case of "surprise" visitors and generally makes the area look more presentable.
